

Dear NJSAMS Users,

This Release Content Letter (RCL) announces the enhancements and maintenance fixes in NJSAMS 3.4.5 release. The highlights of the release Correcting incorrect level of care, Reducing dropdown list in Medicaid section for OTP-OP level of care, IWM package for SAPT initiative.

### **Enhancements in NJSAMS 3.4.5**

1. One of the service provider has incorrectly admitted clients into Wrong level of care, this has been corrected.
2. IME reviewer Module: Currently there are about 11 services are being populated in Medicaid section for OTP-OP level of care, this dropdown list has been reduced to 4 options.
3. IWM Level of care packages is available from SAPT initiative for eligible clients. Since SAPTI is a managed initiative, a clinical request must be submitted to IME
